

# the lost worlds

Exciting Puppet Shows for **1 Person at a Time** by

## Rootling Theatre

# the concept

These family friendly shows invite audiences of 1 at a time to sit down, put on some headphones, and look into the box.

Over 3 minutes, the immersive sound, detailed miniature landscapes, and eye-popping puppets whisk audiences away on their own private adventure into a Lost World.

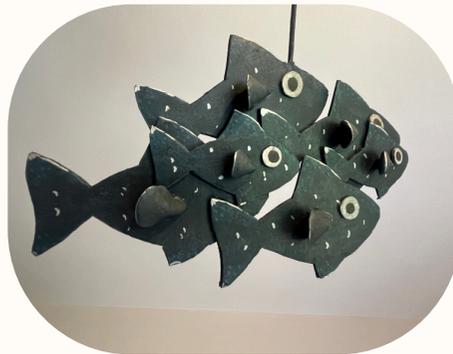

# DINOSAURS

Take a trip back into the Jurassic and explore the ancient forest – from the smallest frog to the largest T-Rex, everything has to be on the lookout for danger in The Lost World of the Dinosaurs.

# atlantis

Dive down to the murky depths of the ocean, where all types of fishy creatures want to get their hands on some sunken treasure. Watch out for the kraken in The Lost World of Atlantis.

# suitability

Location: If outdoors then we ask that there is some shelter available in case of rain, but otherwise the shows can go wherever is most accessible for your audience. Libraries, museums, town squares, art galleries, parks – if people are likely to be nearby, then it's perfect.

Age: These shows are suitable for everyone aged 6+, though we've had great reactions from younger ones and their adults too.

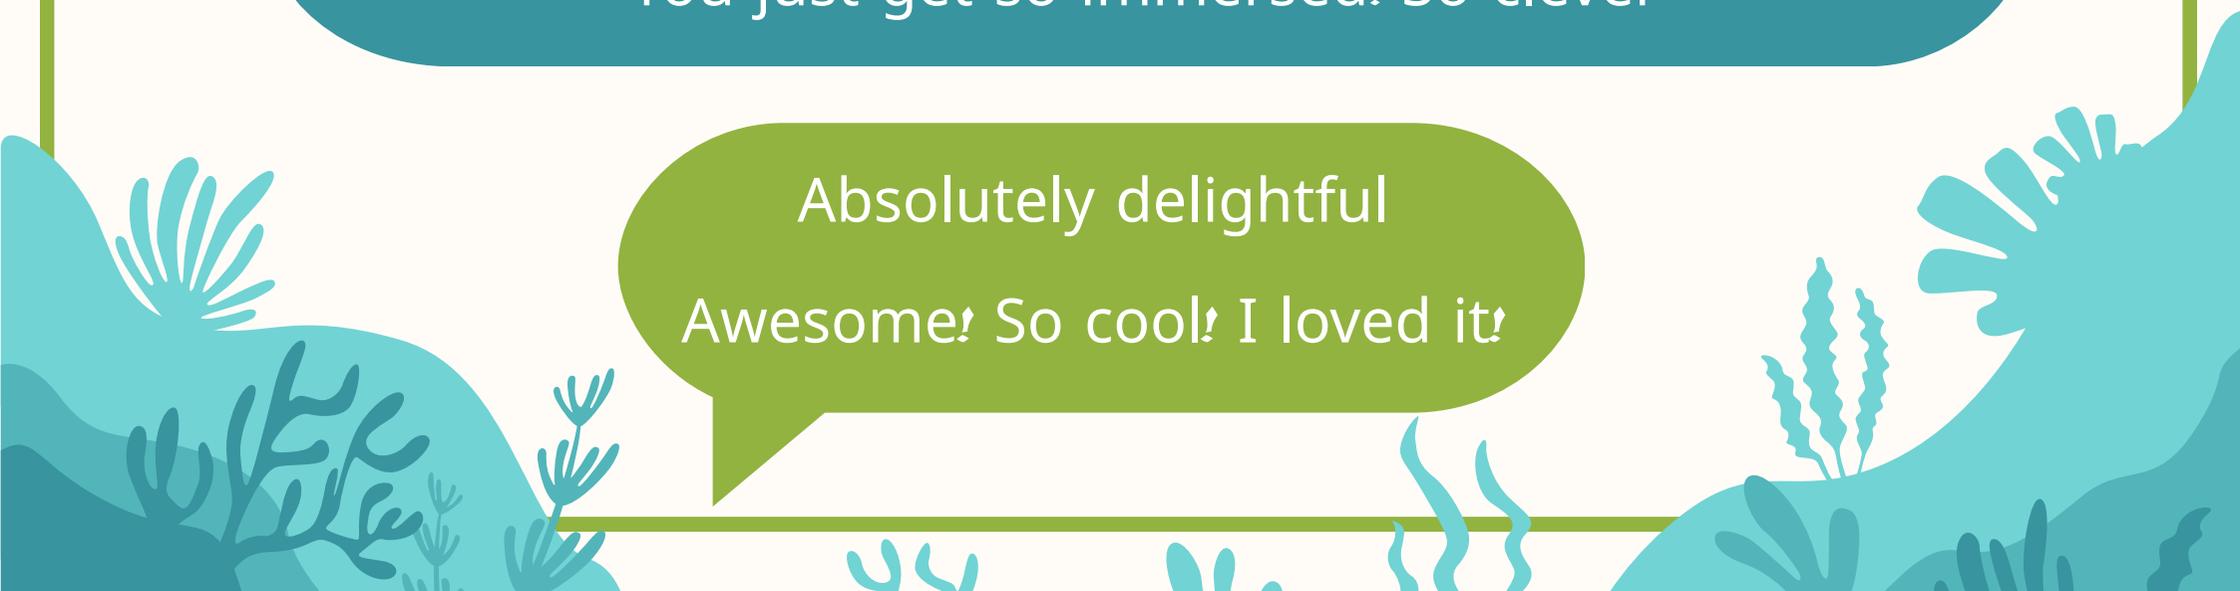

# audience feedback

Spectacular. So detailed. You lose yourself  
I've never seen anything like it!

I loved that... I'm glad you persuaded me to come in  
You just get so immersed. So clever

Absolutely delightful  
Awesome! So cool! I loved it!
